Madonna Louise Ciccone (; born August 16, 1958) is an American singer, songwriter, actress, and businesswoman. Referred to as the "Queen of Pop" since the 1980s, Madonna is known for pushing the boundaries of lyrical content in mainstream popular music, as well as visual imagery in music videos and on stage. She has also frequently reinvented both her music and image while maintaining autonomy within the recording industry. Besides sparking controversy, her works have been praised by music critics. Madonna is often cited as an influence by other a...

Qwant participating to Open Data & Open Source Software projects

- In building **Qwant Maps**, based on OpenStreetMap, Qwant has created **Cosmogony**, an open source project that aims at providing an efficient tool to quickly use and update worldwide geographical regions. It returns geographical zones with a structured hierarchy to easily know that, for example,

  Paris is a **city** in the **state** Île-de-France in the **country** France.

Qwant initiating a new Free Software project: Masq

Masq is a way to have both **personalized results** AND **Privacy**

- All personal data is stored on the user's devices
- Devices are securely synced
- Personalisation happens locally, not on the servers
- Will start with Qwant Search and Qwant Maps services
